You can join PACE if you meet the following conditions:

- You are 55 years old or older.
- You live in the service area of a PACE organization
- You are certified by the state in which you live as meeting the need for the nursing home level of care.
- You are able to live safely in the community with the help of PACE services at the time you enroll.

Enrollment is easy. One of the intake coordinators can meet the senior participant or caregiver at home. The specialist assesses eligibility and schedules a visit to the Day Health Center. At the Center, you will meet the care team. Each participant receives a medical evaluation and a plan of care. Elderhaus PACE completes the enrollment paperwork for you. If a participant decides to leave the program, they may disenroll at any time. If you are eligible for Medicaid and depending on income, PACE services are offered free of charge. If your income is over the threshold determined by Medicaid, you may still be eligible to participate by having a premium. The Intake Coordinator will be able to help you through the process for Medicaid and PACE.

Energy/Utility Assistance

Crisis Intervention Program

The Crisis Intervention Program (CIP) is a Federally-funded program that assists individuals and families who are experiencing a heating or cooling related crisis. A household is considered to be in a crisis if it is currently experiencing or is in danger of experiencing a life-threatening or health-related emergency and sufficient, timely, and appropriate assistance is not available from any other source. Life-threatening is defined as a household that has no heating or cooling source or has a disconnect notice for their primary heating or cooling service and the health or well-being of a household member would be in danger if the heating or cooling crisis was not alleviated. Each household should be evaluated on a case by case basis to determine if there is a heating or cooling crisis. This is a heating and cooling crisis program and not a program for other utility assistance.

Contact your local Department of Social Services to complete the application process and for additional information on CIP.

Fayetteville VA's Brunswick County Clinic

Phone: (910) 754-6141

Address: 18 Doctors Circle Suite 2, Supply NC 28462

Hours: Monday-Friday 8:00am-4:30pm

Care is provided using VA's team-based Patient Aligned Care Teams (PACT) model. A PACT consists of a health care provider (doctor, physician assistant or nurse practitioner), registered nurse, licensed practical nurse and a medical support assistant (MSA) who work together to provide the best possible health care for Veterans. The PACT team works closely with the patients and their families to ensure trusted, personal relationships are developed to coordinate all aspects of the Veterans health care.

Veterans who need specialized health care can get a consult at the Brunswick CBOC and after the consult is completed, be referred to VA's Wilmington Health Care Center to receive the specialized services they need such as Mental Health, Urology, Women's Health, Orthopedics and more.
